—| Introduction |—

Growcer is the perfect turnkey solution to build an online grocery store which is aesthetically designed and intelligently developed.

— | Key Features | —

- Cart sharing feature for registered users
- Select Delivery Date and Time on Checkout
- Message System(*Between registered users and admin*)
- Email Verification
- Membership Plans
- Wallet Management
- View Wishlist
- Unlimited number of site Users and Products
- Multiple currency option
- Guest user checkout
- Multiple payment options (*Manageable from admin area*)
- Product comparison feature
- Multiple Language option
- Affiliate program
- Multiple shipping options
- Manage Reports
 - Sales
 - Products
 - Customers

Frontend Key Features:

- Sell unlimited products with an easy to use interface for buyers and backend team.
- User friendly navigation bar
- Unlimited number of product listings and users

Note: Our scripts do not limit the number of users or products but beyond 100,000 Users and 100,000 Products – You will need a more powerful server/hosting service and may be some optimization into the scripts and Database also as the database size and concurrent users count increase. Ideally we recommend that you should have the hosting budget of 100 USD per month if the average daily visitors count is up to 1000 Visitors. This budget should increase at least in the same proportion when your user base/average daily visitors count is increasing.

- Free registrations for users.
- Email Verification
- Membership Plan

Note: Can be used for the free shipping or displaying selected payment gateways.

- Member Sign up, Login and forget password
- Sign up with Facebook/Google+
